## SUMMARY

---

As a front-end developer, I have a keen eye for detail and a passion for creating visually stunning websites that are both functional and user-friendly. I enjoy working with HTML, CSS, and JavaScript to bring designs to life, and I'm always looking for ways to improve my skills and stay up-to-date with the latest web development trends. I have also gained experience working with WordPress and Shopify, two popular content management systems used by businesses of all sizes. Whether it's customizing themes, creating plugins, or building e-commerce websites, I'm comfortable working with both platforms and can adapt quickly to any project requirements.

Finally, I have experience converting UX/UI designs into pixel-perfect HTML, CSS, Bootstrap and JavaScript code that is optimized for performance and accessibility. Overall, I'm a motivated and passionate front-end developer with a strong work ethic and a desire to continuously learn and grow. I'm excited about the opportunities that lie ahead and look forward to contributing my skills to help organizations achieve their goals.

## Skills

---

- HTML
- CSS
- Shopify Design
- JavaScript
